

STOP SMOKING NOW!

No 'Butts' About it

- We want to Quit smoking
- We want to live a healthier lifestyle
- We definitely want to live longer
- LaserQuit can (and does) help!

The process of Quitting smoking has proven to be harder than cracking a heroin or cocaine addiction and until recent times, there was no one with the vision of specialising exclusively in the field of smoking cessation. With laws now prohibiting smoking in most public places, the anti-social stigma and the awareness of extreme health risks the demand is increasing - over 90% of world-wide smokers are seeking an effective way to stop smoking without experiencing the associated side effects of withdrawal.

Imagine 4000 years of Chinese and European research with the technology of the future ... the exclusive LaserQuit laser acupressure therapy and equipment is painless, simple, quick and affordable!

- No Needles
- No Drugs
- No Hypnotherapy
- No Nicotine Substitutes
- No Physical Cravings
- No Irritability

STOP SMOKING NOW!

Alternative medicines and treatments are fast becoming recognised as the preferred option for curing illness and other conditions, such as the addiction to smoking. LaserQuit offers more than just an alternative option to helping smokers Quit, it provides a tried, proven and effective SOLUTION!

We all know that Franchising is an internationally proven method of business expansion and combines the motivation of people who own their own business with credibility, experience and image of a recognised name organisation. In an ongoing relationship with Franchisees, the LaserQuit Franchisor management team will provide assistance and advice throughout the term of the Franchise.

LaserQuit Franchisees own their own business but trade under the proven success of the LaserQuit name. A LaserQuit Franchise will set you free to generate your own income while the business side is disciplined by the tried and proven formula that has made the LaserQuit name successful.

Are You a 'Fit' Candidate?

This style of franchise is particularly well received by people from the personal/healthcare services industry such as medical professionals, beauty therapists, massage therapists, existing laser clinic professionals, or investors seeking a passive income, etc., that are looking to avail themselves and their acquired expertise in ownership of a lucrative business and a quality lifestyle. By inquiring about a LaserQuit franchise you have taken the first step towards success – you have wisely chosen to consider a franchise business and a business in a growth area that is continually achieving success in the healthcare and lifestyle industry with national and international proven techniques.

Estimated Franchise Investment

ESTIMATED TOTAL INVESTMENT \$100,000 - \$150,000
